I'm not sure that we can supply Ms. Knote with all of the information that she desires. (She's looking for folks who might want to incorporate her bait station into a 5/28/08-compliant RTU Tier-1 registration). However, it should at least be possible to provide a list of registrants of the 10 chemicals subject to the new policy. You have put together some information in that regard as has Russell Wasem. I would invite you, him, John Hebert, Jennifer, and Laura Parsons to the meeting, if we were to have it.

Subject Re: Appointment for Wednesday, March 4 

I just received your note. I'm pressed for time in what remains of this afternoon but will try to get a room reserved for the time requested when I return to the office on Tuesday. If we determine that we can supply as much as we are permitted to of the information that you desire prior to the meeting, would you still want to meet to address other topics?

Subject Appointment for Wednesday, March 4

February 19, 2009

Hello Bill:

As we discussed, I would like to make an appointment to meet with you on Wednesday, March 4, 2009 between 9AM-10AM. The actual time of the meeting can be later in the morning if needed. The purpose of the meeting is to obtain the list of all of the Rodenticide Registrants who are required to comply with the new Risk Mitigation Regulations. At the

same time, I would like to determine the status of the intentions of these Registrants if possible.

I look forward to hearing from you.

Cordially,

Elizabeth (Lizbe) Knot
